Sec. C-5. 20-A MRSA §15688-A, sub-§1, as amended by PL 2019, c. 343, Pt. AAAAA, §1, is further amended to read:

1. Career and technical education program components. Beginning in fiscal year 2018-19, the allocation for career and technical education centers and career and technical education regions is based upon a model that recognizes program components that have been approved by the department pursuant to chapter 313 for:

A. Direct instruction. The direct instruction component includes personnel costs for teachers, education technicians for programs and clinical supervisors for health care programs. The allocation for direct instruction is the sum of the costs as determined based on the following components, which the commissioner shall determine annually:

(1) A teacher salary matrix. In determining the teacher salary matrix for each program, the commissioner shall give consideration to the most recent available data regarding years of education experience and years of professional work experience relevant to instructional assignment;

(2) Student-to-teacher ratios for each program;

(3) The number of education technicians required for purposes of instructional support, based on student enrollment and program requirements. The commissioner shall calculate the education technician allocation by multiplying the number of education technicians required by the statewide average salary for full-time education technicians, based on the most recent available salary data, but shall ensure that each career and technical education center or career and technical education region is allocated at least one full-time education technician; and

(4) The clinical supervision staffing level necessary for each program requiring such staffing, based on student enrollment as determined pursuant to paragraph G;

B. Central administration. The central administration component includes personnel costs for directors, assistant directors and clerical staff working in career and technical education centers and career and technical education regions, as well as business managers working in career and technical education regions. The central administration allocation is the sum of:

(1) Costs for personnel for each career and technical education center and career and technical education region, as follows:

(a) A director, the allocation for which must be for one full-time equivalent;

(b) An assistant director, the allocation for which must be based on student enrollment as determined pursuant to paragraph G but may not exceed one full-time equivalent;

(c) Clerical staff, the allocation for which must be for at least one full-time equivalent, with additional clerical staff allocations based on student enrollment as determined pursuant to paragraph G;

(d) A career and technical education region business manager, the allocation for which must be for one full-time equivalent; and

(e) Benefit costs for employees in central administration, which must be calculated pursuant to section 15678, subsection 5, paragraph B; and

(2) Nonpersonnel costs, which the commissioner shall calculate annually based upon the relationship of the most recent available career and technical education expenditures for nonpersonnel costs to personnel costs;

C. Supplies and other expenditures such as purchased services, dues and fees for instructional programs. The allocation for supplies and other expenditures is the sum of:

(1) A per-program allocation for supplies, as determined by the commissioner based on the most recent available career and technical education expenditures amount, adjusted to the year prior to the allocation year; and

(2) A per-pupil allocation for each student in each career and technical education center and each career and technical education region, determined by the commissioner based on:

(a) The most recent available career and technical education expenditures amount, adjusted for inflation to the year prior to the allocation year; and

(b) Student enrollment, as determined pursuant to paragraph G;

D. Plant operation and maintenance, including all costs for operating and maintaining buildings and grounds. The commissioner shall determine the allocation for plant operation and maintenance costs for each career and technical education center and each career and technical education region by multiplying the square footage of the career and technical education center or career and technical education region building by an amount per square foot, as determined by the commissioner;

E. Other student and staff support, which includes costs for student services coordination, career preparation, instructional technology, professional development, student assessment and program safety. The other student and staff support allocation is the sum of the costs for:

(1) A counselor, the allocation for which must be for one full-time equivalent, to collaborate with sending school guidance counselors in order to maximize student participation at the middle school and high school grade levels;

(2) Career and technical education center or career and technical education region student services coordinators, the allocation for which must be based on student enrollment, as determined pursuant to paragraph G, but no less than one full-time equivalent;

(3) Benefit costs for employees under this paragraph, calculated pursuant to section 15678, subsection 5, paragraph B; and

(4) Instructional technology, staff professional development, student assessment and program safety. The commissioner shall calculate a per-pupil allocation for this allocation based upon student enrollment, as determined pursuant to paragraph G, and the relationship of the most recent available career and technical education expenditures for these costs to total costs, adjusted to the year prior to the allocation year;

F. Equipment provided pursuant to subsection 6; and

G. Student enrollment, which is determined as follows.

(1) For each program or plan approved pursuant to chapter 313 that has 3 years of attending student counts on October 1st, student enrollment is a 3-year average of the attending student counts on October 1st for that program or plan.

(2) For each program or plan approved pursuant to chapter 313 that is not governed by subparagraph (1), including a new program or plan approved pursuant to chapter 313, student enrollment must be based on the estimated attending student count submitted in accordance with the application for the program or plan approval. This estimated attending student count must be used until the program or plan has 3 consecutive years of actual attending student counts on October 1st.

In fiscal year 2019-20, the total allocation for a career and technical education center or career and technical education region is the sum of the components in paragraphs A to E, except if the sum of the components in paragraphs A to E is less than the most recent expenditure data, as adjusted for inflation to the year prior to the allocation year, the career and technical education center or career and technical education region may not receive less than the adjusted expenditure, and if the sum of the components in paragraphs A to E is more than 5% greater than the most recent expenditure data, as adjusted for inflation to the year prior to the allocation year, then the career and technical education center or career and technical education region may not receive more than the adjusted expenditures plus 5%.

In fiscal year 2020-21, fiscal year 2021-22 and fiscal year 2022-23, the total allocation for a career and technical education center or career and technical education region is the sum of the components in paragraphs A to E, except if the sum of the components in paragraphs A to E is less than the most recent expenditure data, as adjusted for inflation to the year prior to the allocation year, ~~or more than the most recent expenditure data, as adjusted for inflation to the year prior to the allocation year,~~ the total allocation must be determined pursuant to subsection 1-A. If the sum of the components in paragraphs A to E is more than 15% greater than the most recent expenditure data, as adjusted for inflation to the year prior to the allocation year, the career and technical education center or career and technical education region may not receive more than the adjusted expenditures plus 15%.

Beginning in fiscal year 2023-24, the total allocation for a career and technical education center or career and technical education region is the sum of components in paragraphs A to E.

The commissioner shall authorize monthly payment of allocations to career and technical education centers and career and technical education regions in an amount equal to 1/12 of the total allocation. Payments for satellite programs as approved pursuant to chapter 313 must be made within this schedule to the responsible career and technical education center or career and technical education region; it is the responsibility of the career and technical education center or career and technical education region to provide the state support for the approved satellite program to the school administrative unit that operates the approved satellite program.

If a school administrative unit operating a career and technical education center or career and technical education region has any unexpended funds at the end of the fiscal year, these funds must be carried forward for the purposes of career and technical education.

B. Subject to paragraph A, an employer's contribution rate for the 12-month period commencing January 1st of each year is based upon the employer's experience rating record and determined from the employer's reserve ratio. The employer's reserve ratio is the percent obtained by dividing the amount, if any, by which the employer's contributions, credited from the time the employer first or most recently became an employer, whichever date is later, up to and including June 30th of the preceding year, including any part of the employer's contributions due for that year paid on or before July 31st of that year, exceed the employer's benefits charged during the same period, by the employer's average annual payroll for the period of 36 consecutive months ending June 30th of the preceding year. The employer's contribution rate is determined under subparagraphs (1) to (8).

(1) The commissioner shall prepare a schedule listing all employers for whom a reserve ratio has been computed pursuant to this paragraph, in the order of their reserve ratios, beginning with the highest ratio. For each employer, the schedule must show:

(a) The amount of the employer's reserve ratio;

(b) The amount of the employer's annual taxable payroll; and

(c) A cumulative total consisting of the amount of the employer's annual taxable payroll plus the amount of the annual taxable payrolls of all other employers preceding the employer on the list.

(2) The commissioner shall segregate employers into contribution categories in accordance with the cumulative totals under subparagraph (1), division (c). The contribution category is determined by the cumulative payroll percentage limits in column B. Each contribution category is identified by the contribution category number in column A that is opposite the figures in column B, which represent the percentage limits of each contribution category. If an employer's taxable payroll falls in more than one contribution category, the employer must be assigned to the lower-numbered contribution category, except that an employer may not be assigned to a higher contribution category than is assigned any other employer with the same reserve ratio.

(3-A) Beginning January 1, 2008, the commissioner shall compute a reserve multiple to determine the schedule and planned yield in effect for a rate year. The reserve multiple is determined by dividing the fund reserve ratio by the average benefit cost rate. The determination date is October 31st of each calendar year. The schedule and planned yield that apply for the 12-month period commencing on January 1, 2008 and every January 1st thereafter are shown on the line of the following table that corresponds with the applicable reserve multiple in column A.

(4) The commissioner shall compute the predetermined yield by multiplying the ratio of total wages to taxable wages for the preceding calendar year by the planned yield.

Contribution category 20 in the table in subparagraph (2) must be assigned a contribution rate of at least 5.4%. The employer's experience factor is the percentage shown in column C in the table in subparagraph (2) that corresponds with the employer's contribution category in column A, except that the experience factors in column E must be used to determine the contribution rates for rate years 2000 and 2001 and those in column D must be used for rate years 2002 and 2003. Beginning January 1, 2018, for rate years when schedule A is in effect as determined in subparagraph (3-A), the experience factor in subparagraph (2) for contribution category 1 is assigned an experience factor of 0.00 in column C.

(6) If, subsequent to the assignment of contribution rates for a rate year, the reserve ratio of an employer is recomputed and changed, the employer must be placed in the position on the schedule prepared pursuant to subparagraph (1) that the employer would have occupied had the corrected reserve ratio been shown on the schedule. The altered position on the schedule does not affect the position of any other employer.

(7) In computing the contribution rates, only the wages reported by employers liable for payment of contributions into the fund and net benefits paid that are charged to an employer's experience rating record or to the fund are considered in the computation of the average benefit cost rate and the ratio of total wages to taxable wages.

(8) Beginning January 1, 2008, all contribution rates must be reduced by the Competitive Skills Scholarship Fund predetermined yield as defined in section 1166, subsection 1, paragraph C, except that contribution category 20 under this paragraph may not be reduced below 5.4%.

(9) Beginning January 1, 2021, the contribution rate must also be reduced by the Unemployment Program Administrative Fund predetermined yield as defined in section 1167, subsection 1, paragraph C, except that a contribution rate under this paragraph may not be reduced below 1%.

Sec. FF-1. 26 MRSA §1167 is enacted to read:

§1167. Unemployment Program Administrative Fund

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Unemployment Program Administrative Fund contributions" or "fund contributions" means the money payments required by this section to be made into the Unemployment Program Administrative Fund by an employer as a percentage of the employer's taxable payroll based on the Unemployment Program Administrative Fund predetermined yield in effect for the Unemployment Program Administrative Fund rate year.

B. "Unemployment Program Administrative Fund planned yield" means the percentage of wages, as defined in section 1043, subsection 19, equal to .04% of the total wages for each contributing employer subject to this chapter.

C. "Unemployment Program Administrative Fund predetermined yield" means the amount determined by multiplying the ratio of total wages to taxable wages, as defined by section 1221, subsection 6, paragraph L, by the Unemployment Program Administrative Fund planned yield. The Unemployment Program Administrative Fund predetermined yield is rounded to the nearest .01%.

D. "Unemployment Program Administrative Fund rate year" has the same meaning as "rate year" under section 1221, subsection 6, paragraph F.

2. Established. The Unemployment Program Administrative Fund, referred to in this section as "the fund," is established as a special fund in the State Treasury. All receipts, including interest, fines and penalties collected from the Unemployment Program Administrative Fund contributions, must be paid into the fund. Income from the investment of the fund must be deposited to the credit of the fund. All money in the fund must be deposited, administered and disbursed in the same manner and under the same conditions and requirements as are provided by law for other special funds.

3. Administered. The money in the fund must be administered by the commissioner exclusively for the purpose of administering this chapter and for the costs of administering the fund.

4. Employers liable for fund contribution. Each employer, as defined in section 1043, subsection 9, other than an employer liable for a payment in lieu of a contribution, shall pay a fund contribution. Beginning January 1, 2021, fund contributions are payable in the same manner as described under section 1221, subsection 1 and in accordance with section 1221, subsection 4-A.

5. Receipts. All receipts collected from fund contributions, including interest, fines and penalties on fund contributions not paid when due, must be paid into the fund.

6. Experience rating records. Fund contributions may not be credited to an employer's experience rating record as described in section 1221, subsection 3.

7. Relationship to unemployment insurance contributions. Fund contributions may not be considered as part of the employer's unemployment insurance contribution rate pursuant to section 1221. Unemployment insurance contributions for all employers subject to the contribution provisions of this chapter must be reduced by a percentage equal to the total fund contribution assessment as in section 1221, subsection 4-A. Exceptions pertaining to new employer rates and contribution rate category 20 are described in section 1221, subsection 4-A, paragraphs A and B.

8. Other provisions of this chapter. All provisions of this chapter and rules adopted under this chapter regarding payments, time limits, dates of payment, reports, interest and penalties on amounts not paid by employers when due, fines, liens and warrants that apply to the collection of contributions also apply to the collection of fund contributions.

9. Maximum fund balance. The Department of Labor shall transfer any cash balance that exceeds 180 days working capital as of December 31, 2023, and every year thereafter, from the Unemployment Program Administrative Fund to the Unemployment Compensation Fund within 30 days.

PART GG

Sec. GG-1. Money credited to State of Maine account in Unemployment Trust Fund under Section 903(f) of federal Social Security Act. Money credited to the account of the State of Maine in the federal Unemployment Trust Fund by the United States Secretary of the Treasury on July 29, 2009 pursuant to Section 903(f) of the federal Social Security Act may not be requisitioned from the State's account or used except for the payment of benefits and for the payment of expenses incurred for the administration of the State's unemployment compensation law and public employment offices. Money used for the payment of benefits is requisitioned as defined in the Maine Revised Statutes, Title 26, section 1162. Money requisitioned and used for the payment of expenses incurred for the administration of the State's unemployment compensation law and public employment offices requires a specific appropriation by the Legislature as provided in section 2. That use is only permissible if the expenses are incurred and the money is requisitioned after the effective date of a law making an appropriation and specifying the purposes for which the money is appropriated and the amounts appropriated for those purposes. Any amount that may be obligated under such an appropriation is limited to an amount that does not exceed the amount by which the aggregate of the amounts transferred to the account of the State of Maine pursuant to Section 903(f) of the federal Social Security Act exceeds the aggregate of the amounts used by the State pursuant to this Act and charged against the amounts transferred to the account of the State of Maine.

For purposes of this section, the amounts obligated under an appropriation for administrative purposes must be charged against transferred amounts at the exact time the obligation is entered into. The appropriation, obligation and expenditure or other disposition of money appropriated under this section must be accounted for in accordance with standards established by the United States Secretary of Labor. Money appropriated as provided in this Act for the payment of administration must be requisitioned as needed for the payment of obligations incurred under the appropriation and, upon requisition, must be deposited in the Employment Security Administration Fund from which payments are made. Money so deposited must, until expended, remain a part of the unemployment fund and, if it will not be immediately expended, must be returned promptly to the account of the State of Maine in the federal Unemployment Trust Fund.

Sec. GG-2. Allocation maintaining state unemployment compensation and public employment system. There is allocated out of funds made available to the State under Section 903(f) of the federal Social Security Act, as amended, the sum of \$27,534,100, in accordance with section 1, to be used under the direction of the Department of Labor for the purpose of maintaining and operating the State's unemployment compensation and public employment system. The uses include both personnel and nonpersonnel administrative costs required to administer the unemployment insurance program, deliver employment assistance services through the Department of Labor's career center system and provide labor market information program services for workers and employers in the State.

The amount obligated pursuant to this Act may not exceed at any time the amount by which the aggregate of the amounts transferred to the account of the State of Maine pursuant to Section 903(f) of the federal Social Security Act exceeds the aggregate of the amounts obligated for administration and paid out for benefits and required by law to be charged against the amounts transferred to the account of the State of Maine.
